You Can Feel Confident When Prescribing 3D Shades at IDA!

Great Past...

Better Future...

For many, many years we as dental professionals have relied upon the Vita Classical shade guide. It has been consistent and reliable for us and will always be, but today there is a much more advanced version to enhance our profession. Just as all things have advanced such as our television, dental shade selection has as well. Don't get left behind with old faithful and stay tuned with modern technology by choosing the Vita 3-D Shademaster.

At IDA we have converted our PFM porcelain to the Vita VM13 which will allow you to prescribe 3-D shades and feel confident receiving those shades. The Vita Classical shades are still available but will limit you to basics. Order your Vita 3-D Shademaster today
