Captek™

**The Perfect Choice for
the Perfect Smile**

Captek™ is becoming more and more known as a solution for esthetic, strong, predictable and healthy restorations. The non-oxidizing gold appearance of the metal exerts a wonderful warmth and vitality to any porcelain. Captek™ allows the dentist to choose a porcelain margin or metal to the edge and still expect an outstanding esthetic result. Esthetics is not the only benefit of Captek™. In most high gold systems, the higher the gold content, the greater the compromise in strength and stability. Captek™ is an Internally Reinforced gold. The 97.5% gold, 2.5% silver is supported by a three dimensional skeleton of hard, thermally stable particles of platinum and palladium resulting in a material that combines the best properties of all the elements in the same system.

**Return this coupon with your Captek™
restoration and receive an Image Cap.**

The Influential Leader

On April 29, 2005 six of our employees were fortunate to attend a leadership training seminar sponsored by maximum impact. Via satellite they were able to learn from some of our country's greatest leaders.

Mike Krzyzewski , Duke Basketball Coach says " A person who wants to be a leader needs to put together an environment of success." (We didn't say Duke was the best basketball team!)

Bobby Bowden, Florida State Coach states that great leaders are of integrity, compassion and courage.

John Maxwell is the founder of maximum impact , and states that successes and failures can be traced to relationships in our lives. He is the author of Winning With People.

Our leaders are going to continue education through this program and enhance our leadership skills.
